AC DRIVES, GENERAL PURPOSE

CUSTOMISE YOUR DRIVE

DRIVE OBSESSED

COMMANDER S

HAVE IT YOUR WAY!

Easy to install. Easy to use. **Easy to customise.**

COMMANDER S

Our new Commander S is more than just an easy to install solution for your application, we understand the importance of offering a product you can make your own.

That's why Commander S is customisable. From labelling, packaging, manuals to software, we have you covered.

PROMOTE YOUR BRAND

We know how important brand is to drive buyer confidence and engagement. The visual elements of your brand make it recognisable to your audience. As such, we offer the opportunity to have your brand logo front and centre on the Commander S display, support documentation and marketing materials.

ADD UNIQUE AESTHETIC IDENTIFIERS

With its curvature continuous blend, from top surface to the front face, Commander S radiates a unique personality. All this is achieved within a single component body. In green it really stands out when fitted in an industrial installation. You can also opt for a more subtle grey or any other colour.

We like the rugged, industrial look of the exposed terminals, but you can add a cover for a smoother finish.

TAILOR IT TO YOUR TARGETED MARKET

Creating an incredible product experience starts with offering the right functionalities for each customer. No more, no less, just the right fit.

Commander S has been optimised for simple applications and we can support you in further customising the feature set to your customers' specific needs.

We can pre-load configurations unique to your customers during factory manufacturing, effectively eliminating commissioning in the field and reducing installation time.

New features required? That's no problem! We can develop a customised software package.

CONTROL TECHNIQUES. NO ONE KNOWS DRIVES LIKE WE DO.

Our drive obsessive representatives will drive you in the right direction and give you first class support whenever you need it.
